Mr. Dan Rather,

If I ever happen to meet you I'll kick your ass, you ignorant bastard. I see the only way you learn is the hard way. I suppose your excuse now is that you read the lines, they wrote for Czars of Autumn, No deal Danny boy, you show your face in Northern N.Y. I will show the same logic. I wrote a letter to your president on this. My rod & gun club will be getting out a long letter shortly, with a few hundred sig natures. So up yours ass Dan. I hope I catch up with you some day Michael Lee
